

# Ready to roll ...

## DAVI – delivers for Australian industry

Davi is the market leader worldwide in the manufacture of bending machines including heavy duty plate and section rolls. DAVI's patented complete wind tower lines are used by more than 85% of windtower manufacturers.

DAVI machine systems have become synonymous with high precision, exceptional productivity, efficiency and long-lasting value. Their impressive client base includes aerospace giants NASA, AIRBUS and Boeing.

Many Australian companies have increased their productivity by up to as much as 10 times utilising DAVI technology.

Fabrication Equipment Supplies (FES) is the exclusive Australian agent for high quality DAVI products.

FABRICATION EQUIPMENT SUPPLIES

- **PLATE ROLLS**  
– from 1mm to 250mm thickness
- **SECTION ROLLS**  
– light and heavy duty all applications
- **WIND TOWERS**  
– DAVI world leader
- **PRESS BRAKES AND GUILLOTINES**  
– superior quality all sizes
- **PROFILE & PLASMA CUTTING MACHINES**
- **BANDSAWS**  
– light and heavy duty all applications
- **PUNCH AND SHEAR MACHINES**  
– light and heavy duty
- **CNC MACHINERY**  
– full range available
- **USED MACHINES**  
– only quality used range
- **ROLL FORMING**  
– specialising in high productions

## – Quality and Service Second to None

Punch and Shear Machines – light & heavy duty

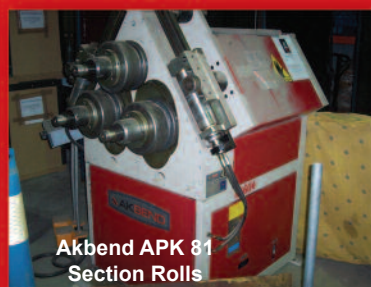

Section Rolls – light & heavy duty

Bandsaws – light & heavy duty

Press Brakes and Guillotines

Plate Rolls – light & heavy duty
